

COLLABORATIVE MODEL OF VOCATIONAL EDUCATION AT +2 LEVEL

Memorandum of understanding

The vocational courses at 10 + 2 level are changed with a view to promote self employment and employment amongst the trained youths. This is a skill oriented vocational education and therefore needs industries co operation for skill enrichment and placement of students and up gradation of institutes A

MEMORANDUM OF UNDERSTANDING is therefore entered Between

Shri Chatrapati Shahu Maharaj Pvt. Industrial Training
Institute, Wani Dist-Yavatmal on one part and

Prakash Motors Mechanical works, Wani
Dist- Yavatmal on the other part. Mech. Diesel

This memorandum of understanding is entered with a view to promote industry institutes interaction for the purpose of upgradation of skills of vocational students, to provide inputs of suitability customize the curriculum and teaching methodologies, help faculty development and make the training more suitable for encouraging self employment as well as for promoting employment. The whole process shall be oriented towards better ties and close co-operation between both parties and for drawing mutual benefits from the interaction.

It is accordingly agreed that

1. We would exchange information and data on training and skill requirement and data on the matters related to emerging needs of industries and other service sectors.

2. We would work jointly to add essential skills concepts in the existing curricula to cater local occupational needs.

We would also jointly work out changes/revisions in the existing syllabus and/or design new curricula looking to the changes in the technology and work requirements.

3. We would jointly review the availability of instructional material like text books, laboratory manuals, charts, data books, models trainers slides, filmstrips, audio and video films and jointly work out a strategy for preparing instructional material as needed.

4. We shall work out the requirements of essential machinery, equipment and tools required for different courses. We shall ensure their relevance and optimal utilization.

we shall jointly work out the strategy for repairs and maintenance of institutional equipment, sharing of equipment and resources and replacement of absolute equipment of the institute and modernizing their laboratories and work shops.

we shall also examine the possibility of giving certain equipment, models etc. to the institutes for making the practical training more meaningful.

5. We shall workout the infrastructure requirements of the institutes and possibility of providing financial assistance from industries side to the extent possible for developing institutional libraries, laboratories, play grounds etc.

6. We shall jointly evolve a programme for professional development and career advancement of faculty and staff. This will include orientation training to faculty in the industry providing guest faculty to institutes and drawing faculty members from institutes to give lectures to workers etc.

7. We shall work out a programme for bringing competitiveness in the work by arranging skill competitions, debates on technical issues etc.

We shall promote periodic technical exhibitions to encourage innovations.

8. We shall jointly arrange industrial visits of trainees in vicinity, shall provide them on the job training during vacations and holidays and shall ensure that they are exposed to world of work.

9. We shall jointly arrange a programme for periodical evaluation of students as regards skill and knowledge arrangements shall also be made for providing communication skill and vocational guidance to the students.

10. We shall jointly prepare a scheme of execution of industrial jobs by institutes under production oriented Training Scheme. Part of earnings shall be distributed among students to promote the concept "earn while learn." Trainees will also be assigned certain industrial problems to promote innovations.

11. Though this MoU has been entered for one to one interaction both the institute and industry may act as interface for a group of industries on one side and group of institutes on other side promote the idea of collaborative model.

Both the:- Shri chatrapati shahu Maharaj PVT-ITI, Wani
and:- Prakash Motors mechanical works, Wani

are pleased to enter into this Memorandum of Understanding and strongly believe that this MoU would lead to a continuing period of meaningful interaction, cooperation and exchange of information and ideas.

We both value the spirit of this agreement and shall make every attempt to develop various facts of this MoU.

This MoU will be in force for a period of 5 years and would be further continued as may be mutually agreed.

This MoU does not preclude the possibilities of third entering into a similar MoU with any other agencies for similar purpose.
